BROKORA

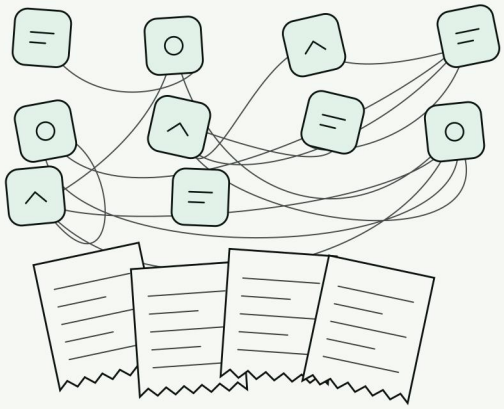

Brokora Runs On Automation. You Pay Only For Your Own AI.

One key unlocks every AI tool.
Set it up once, in about two minutes.

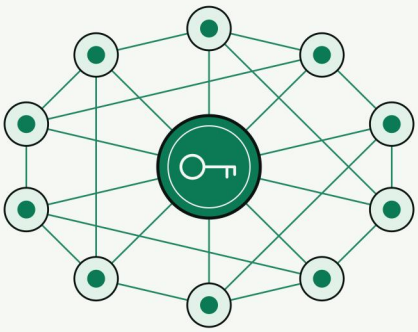

The old way

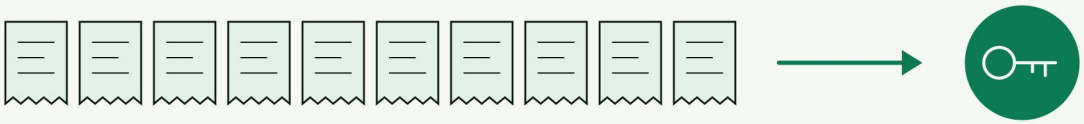

Ten apps. Ten bills.
Middleman markups.

The Brokora way

One key. One bill.
Google's own price.

Ten monthly app bills, or one key
you pay for only when you use it.

One key. Eleven ways it pays off.

1

One key unlocks every AI tool

Set it up once on your profile, in about two minutes.

2

Pay only for what you use

No monthly AI subscription to keep paying.

3

No middleman markup

You pay Google's own price, nothing added on top.

4

Light users often pay nothing

Google's free monthly allowance covers light use.

5

Replace a stack of AI apps

And the monthly fee that came with each one.

6

Everything connected

The AI works across Bond, Envoy, Muse, Pitch, Frame and the rest, using your real client data.

7

One place to learn

Forj walks you through every tool, step by step.

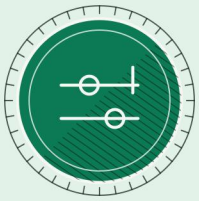

8

Your own brand

Your website chatbot and Emblem logo work carry your own trading style.

9

You stay in control

See your own spend, and set your own limit with Google.

10

Private

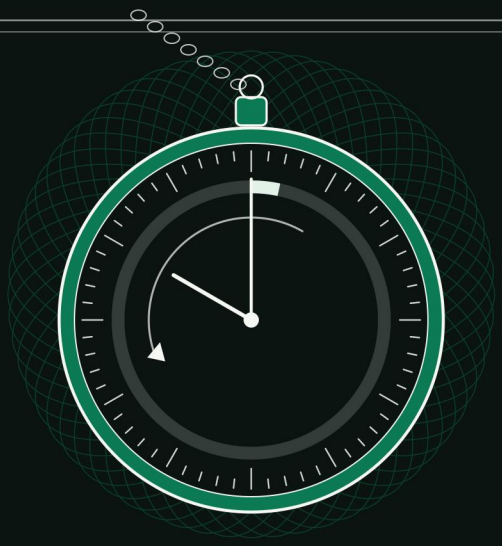

Your key is hidden from everyone else, including managers.

11

Compliance still covered

Brokora pays for the compliance checks on your cases.

About two minutes to set up.

Your key private. Your cases checked.

Brokora Runs On Automation. You Pay Only For Your Own AI.

Your time back, one private key, and no stack of monthly AI bills.
